Landscape Structures Delivers Nature Play Environment at EPCOT®

International Flower & Garden Festival

Play space within the Imagination Garden welcomes children and families of all ages  
Delano, Minn. (April 19, 2018) — Landscape Structures Inc., a Delano-Minn.-based commercial  
playground equipment manufacturer, is proud to have its playground equipment featured at the 25<sup>th</sup>  
Annual EPCOT® International Flower & Garden Festival, which kicked off Feb. 28 and runs through  
May 28, in Lake Buena Vista, Fla. Landscape Structures is a 15-year participant at the Festival, which  
takes place each spring and displays colorful flowers, gardens and more than 75 character topiaries.

New to the Festival this year is the Imagination Garden, which integrates play into the natural  
environment. Nestled among the flowers, trees and other landscaping elements is a maze of play. Kids of  
all ages can navigate the playground tunnels to discover fossil digs and Rhapsody® Outdoor Musical  
Instruments. Upon finding their way out of the maze, kids ages 2 to 5 find more playground fun with the  
hillscape climber, pod steppers and leaf panels while kids ages 5 to 12 can traverse their way up and  
around the Lunar Burst® Net Climber. The play space design truly plays off the aesthetics of the  
surrounding landscape design.

For more information about the 25<sup>th</sup> Annual EPCOT International Flower & Garden Festival or to  
see colorful photos of the event, visit [disneyworld.com/flower](http://disneyworld.com/flower). For more information on designing  
commercial playgrounds for community parks, schools and more, visit [playsi.com](http://playsi.com).

**About Landscape Structures Inc.**

Since 1971, Landscape Structures Inc. has been the leading manufacturer of commercial playground equipment in the world. The employee-owned company designs community and school playgrounds that encourage kids of all ages and abilities to learn persistence, leadership, competition, bravery, support and empathy through play. Landscape Structures pushes the limits—of design, inclusion, play—to help kids realize there is no limit to what they can do today and in the future. For a better tomorrow, we play today.
