Landscape Structures Introduces Face-To-Face Friendship™ Swing for All Ages

Multi-user swing allows friends and entire families to swing together

Delano, Minn. (Feb. 22, 2018) — Landscape Structures Inc., a Delano, Minn.-based commercial playground equipment manufacturer, is excited to introduce the Friendship™ Swing, a one-size-fits-all multi-user swing. This two-seated, face-to-face swing delivers a great way for friends, siblings, parents and grandparents to all enjoy swinging time together.

The Friendship Swing is an ideal gathering spot for friends and families. It's easy to access for individuals of varying abilities. And its black, textured belting provides a comfortable bucket seat that's perfect for individuals ages 2 and up.

"We saw a need to provide a one-size-fits-all multi-user swing that meets the needs of all ages of users," explained Pat Faust, president of Landscape Structures. "The Friendship Swing delivers that and so much more. Its face-to-face design encourages interaction with peers and family members, which will help children's cognitive and social development."

The Friendship Swing is just one more way that Landscape Structures is encouraging parents and caregivers to interact with their children. Research shows that simple, everyday interactions can improve language skills, boost brain development and have a lifelong positive impact.
